CARNEGIE SUMMIT ON IMPROVEMENT IN EDUCATION

Lowering the Barrier to Entry: Demystifying, Decolonizing, and Democratizing Improvement Science in Service of Equity

APRIL 23 - 25, 2023

HILTON SAN DIEGO BAYFRONT

REGISTER
TODAY

Starting from the premise that a focus on equity is feeble without tools to make good on the vision and mission, and that improvement science is amoral without a focus on equity, this interactive workshop engages equity champions who want to employ techniques of improvement science, and improvers who want to be more explicitly focused on equity, and gives them ways of thinking about the overlap between their experiences and interests, so that they will have language and tools to inform their practice moving forward.
