Community of Practice

For the past two years, Partners for Educational Leadership (PEL) has offered a community of practice (CoP) to address the issue of accelerating student learning by supporting school leaders engaged in the work of advancing instruction for all students. PEL is proposing to do the same again this year.

Preliminary plans for a 2024 community of practice are to focus again on improving instruction and ensuring that each and every student achieves grade level standards. The CoP will provide a forum for district and school leaders to share best practices around accelerating learning, high-quality instruction, and ensuring every student is working at grade level or above. During the meetings, we will examine bright spots and challenges while learning from each other.

This virtual community of practice will meet three times between January & April, 2024. Days and times to be determined.
