

# Evaluation Convening for Teams

The Educator Evaluation Guidelines in Connecticut have changed substantially, and districts have a year in which to redesign their educator evaluation procedures in line with the new guidelines. Partners for Educational Leadership is very invested in helping districts go about this work in a thoughtful, strategic, and research-based manner.

During this convening, district leaders will have the opportunity to work with their teams on their educator evaluation redesign plans. The day will include structured planning time, guided planning activities and discussion of next steps.

**This session is only available to districts who attended our Sept 22 or Oct 23 convenings in 2023.**
